

RESIDENT OF THE MONTH

Throughout his residency training, Dr. Eltanany has always excelled in the area of patient care. He works closely with patients to develop thoughtful plans for their care. He cares deeply about his patients, going above and beyond expectations to advocate for them, and provide them with the highest quality care possible. He develops good rapport with patients and is a strong advocate for patient safety. For example, he has been described as compassionate, punctual, thorough and a good listener. For these reasons, his patients reliably continue to seek his care. He will be missed as he pursues a career in inpatient and outpatient Family Medicine in California after graduation!

RESIDENT OF THE MONTH

During her second year of residency, Dr. Johnson has excelled in virtually all areas of practice. The ER team at Memorial was particularly impressed by her performance during a recent rotation in Emergency Medicine. She saw many more patients than expected and developed excellent assessments and plans for their care. She also demonstrated remarkable competency in several procedures, such as intubation. As one notable example, she attended the delivery of a newborn in the emergency department and then accompanied the mother to labor and delivery to ensure she continued to receive the indicated care. Dr. Johnson truly embodies the spirit of Family Medicine!

RESIDENT OF THE MONTH

During his intern year, Dr. Samanapally has excelled in the areas of patient care, practice-based learning and improvement, and professionalism. During his recent inpatient Family Medicine rotation, he developed thoughtful assessments and plans for his patients. He was also remarkably open to feedback and incorporated this feedback into his daily performance. He completed notes and other tasks in a timely manner, and was highly respectful of patients, nurses, colleagues and other members of the healthcare team. We will certainly miss him as he completes the remainder of his residency training at the Christus Family Medicine Program in Alamogordo, New Mexico!
