Memorial Offers The Convenience Of Scheduling Your Doctor's Appointments Online

Memorial Medical Center offers you convenience with online scheduling. Our new website allows you to schedule an appointment with select providers at any time of day, from anywhere, and from any device. Plus, you can opt-in to receive reminders via text message and/or email before your appointment. Visit Memorial's website at mmclc.org/schedule to search for the providers and practices near you. Once you select your provider or practice, you can browse available appointments and book the time most convenient for you. Online scheduling is available for new and existing patients. Your health care is critically important and managing it should be as convenient as possible. With online scheduling, getting your visit on the calendar just got a lot easier. Go to Memorial's online scheduling and book your next appointment.

 Schedule an appointment with a provider anytime, anywhere.

Urology Program Expands With Latest Laser Technology To Treat Prostates And Stones

Memorial continues to expand its technological footprint by offering minimally invasive treatment of two common urological conditions: kidney stones and benign enlarged prostate (BPH). The new laser at Memorial Medical Center precisely directs energy without damaging the surrounding tissue. This means shorter procedures and less time under anesthesia. There is less collateral damage and bleeding to a highly sensitive and vascular area being treated. This all equates to a quicker recovery for the typical patient. The laser can also treat ureter and gallstones.

Care At Memorial Includes General Pediatrics As Well As Intensive Care For Infants & Children

Memorial is the only hospital in Las Cruces to offer pediatric care in the form of general pediatrics and pediatric intensive care. We are proud to be associated with a pediatric intensive care group composed of all Board-certified pediatric Intensivists. Combined with the general pediatricians, family practitioners and advanced trained providers throughout the area, we are able to responsibly keep New Mexican children close to their families and their homes. We continue to add new pediatric-related affiliations and services based on the needs of our community.

Sincerely,

John Harris, CEO

Mission

Making
Communities
Healthier

Vision

To be a place where: People choose to come
for healthcare; Physicians want to practice;
and Employees want to work.
